LIGHTNING EXPLODES BLASTS IN ROCK QUARRY.

Lightning freaks are many and of various kinds, the fluid, or whatever it may be, performing some miraculous stunts. A few nights ago employees in the city rock quarry prepared three holes for blasting out rock for the crusher. These were filled with the required charges of dynamite, tamped down. As the hour was late, the workmen left the wires disconnected from the battery which explodes the charge, intending to fire them the first thing the next morning. The wires were left lying on the ground, the battery ends lying on a small piece of wood. During the night a thunder storm, which had been brewing, through the afternoon, brought out a vivid display of electricity. A bolt of lightning struck the exposed wires, discharging the blasts and piling the debris in confusion for several yards around. When the men came to work the next morning they found nature's forces had cut out their work for them.

SPECIAL BALLOTS FOR WOMEN.

When Kentucky women go to their polling places to vote for President and for School Board members at the November election, they will find that special ballots have been prepared for them to use in expressing their choice. Attorney General Dawson ruled that women voters would not be required to state their party affiliation, because they are not eligible to hold office except on School Boards. Because women are eligible to vote only for Presidential and School Board candidates, they could not use the general election ballot, and Attorney General Dawson ruled that two special ballots must be available, one containing the names of Presidential candidates and the other the School Board candidates.

EXPLODING TIRE CAUSES MAN TO LOSE TEETH.

When an automobile tire on a machine standing in front of the Alamo Theatre on Main street, blew out Saturday afternoon, William Jacobs, of Owenton, who was standing in front of the theatre, opened his mouth so wide his upper false teeth flew out. As they struck the ground a playful dog seized them and dashed around the corner, with Mr. Jacobs in hot pursuit. He failed to catch the dog, and has offered a reward for the return of the teeth, which he stated were very valuable and a necessity to him.

L. & N. ANNOUNCES TRAIN SCHEDULE CHANGES.

Announcement has been made by officials of the L. & N. Railroad Company of an additional fast train, which will be run between Lexington and Cincinnati, effective Monday, August 16. This train will leave Lexington daily except Sunday, at about 7:25 a. m., arriving in Paris about 8. This train stops only at Paris, Cynthiana, Falmouth, Latonia and Covington, arriving at the Grand Central Depot in Cincinnati, at 10:30 a. m. This train will leave Cincinnati each afternoon, excepting Sunday, at 4:10 p. m., arriving in Paris at 6:30 p. m. Effective Monday, Aug. 16, new local passenger train will be run between Lexington and Cynthiana, this train arriving in Paris daily, except Sunday at 5:20 a. m.

A new train, taking the number 40 as its title, will run from Stanford, via Lancaster, Richmond, Winchester, Lexington and Paris, making two stops between Winchester and Lexington and only two stops between Winchester and Lexington, and only two stops, Cynthiana and Falmouth, between Paris and Latonia. This train will be the fastest train between Lexington and Cincinnati, covering the course in practically three hours. Number 40 will leave Stanford at 4:07 o'clock in the morning, and will arrive in Lexington at 7:25 o'clock. Extra coaches will be added, including parlor car service. Number 130 has been changed to No. 18. This train leaves Lexington at 9:35 o'clock at night for Paris and is known as the "Atlanta Special," making connections with the southbound train.

The inauguration of the changes in the Louisville & Nashville trains was the result of co-operation of the railway officials and the local Board of Commerce after a conference of representatives of the two organizations relative to joining closer together the Blue Grass cities.

GOV. COX'S FORMER SECRETARY DEAD.

George F. Burba, editorial writer for the Columbus Dispatch, and at one time private secretary of Gov. Cox and editorial writer on the Dayton News, died very suddenly Friday morning at his home in Columbus, Ohio.

Mr. Burba was 53 years old. He was born at Hodgenville, Ky., where his mother, 89 years old, and a brother, John, still live. Another brother, Howard, lives in Dayton. He has one son, George F. Burba, Jr., at home.

Mrs. Burba was before her marriage Miss Rebecca Hunter, of Lexington, and her marriage to Mr. Burba took place in that city at the home of her sister, the late Mrs. Frank Bissicks. At that time Mr. Burba was a special pension examiner.

LOUISVILLE MAN VICTIM OF ASSAULT NEAR PARIS

J. Lyle Bayless, president of the Bayless Bros. Co., wholesale dealers in chinaware, of Louisville, was the victim of an assault near Paris, Saturday, by two Paris men, in which he sustained three dangerous stab wounds in the back, inflicted by a knife in the hands of Raymond Fryman. Each of the knife wounds were two and a half inches in depth and barely missed entering a vital spot.

Mr. Bayless, his wife, his sister, Mrs. Clay Lyons, of Anchorage, and his aunt, Mrs. William Hemming, of Shelbyville, were touring the Bluegrass region, inspecting stock farms. They were at a point near the Xalapa Stock Farm, on the North Middletown pike, intending to stop there a short time. Raymond Fryman and Charles O. Martin, both of Paris, were in front of them in a taxicab, having been at Xalapa Farm to bring a passenger to Paris. One of the men's hat blew off and Fryman, who was driving, backed the machine to recover the hat. Mr. Bayless, who was following in his machine, was unable to stop in time to avoid a collision. The car driven by Fryman was slightly damaged. Martin and Fryman, it was alleged, alighted from their car and demanded that Bayless pay them for damages sustained by their car. Bayless refused this, and after some words, drove around the Fryman car on his way to Paris. The taxicab soon followed, overtaking the Bayless car at a point near the residence of Walter Kenney, where it swerved in front and came to a stop. An altercation between the men followed, in which Bayless was stabbed three times. During the struggle Mrs. Bayless got out of the car and endeavored to help her husband. She alleged that when she jumped between the men she was roughly pushed aside, and that one of the men threw a rock at her. The timely arrival of a truck from the Xalapa Farm containing a number of Mexicans stopped the affair. The chauffeur acting the role of peacemaker.

The two men were held and the authorities at Paris telephoned the situation. Deputy Sheriff Robert Gilkey and Patrolman Robert Lusk responded, placing Fryman and Martin under arrest. When searched the knife, still covered with blood, was found in Fryman's rear pocket, stuffed underneath some papers. The men were taken to the Paris jail, while Mr. Bayless was brought to the Massie Memorial Hospital, in Paris, where his injuries were given attention.

The women in the party were taken to the residence of Walter Kenney and later came to Paris. Martin and Fryman were released on \$500 bail, the former's father furnishing bail for him, and Fryman's relatives furnishing cash bail for him. They will be given a hearing before Judge George Batterton in the County Court.

Mr. Bayless's brother, Dr. J. Lyle Bayless, and G. H. Lindenberger, both of Louisville, came to Paris, Sunday, and removed the wounded man in an especially fitted up automobile, to his home in Louisville, the ladies of the party accompanying them in the machine which had figured in the affair.

When the warrant was first issued for the arrest of Martin and Fryman the charge read assault and battery. Yesterday the officials learning the serious condition of the wounded man, changed the charge to that of malicious cutting with intent to kill, and warrants were prepared and served on the men by Sheriff W. G. McClintock and Patrolman Lusk. They were taken before County Judge Batterton, who fixed their bond at \$2,000. Martin gave bond with his father, C. N. Martin, as surety, and was released. Fryman later furnished bond, and was released from custody.

J. C. CANTRILL WINS NOMINATION FOR CONGRESS

Attorney Robt. Lee Murphy's second attempt to annex the seat in Congress held by J. Campbell Cantrill, resulted in a miserable showing. Mr. Cantrill piling up a vote, even in the face of the stay-at-home vote, that made Murphy look like a selling-plater in a field of good horses.

There was very little interest manifested in the race, which was not a race, but a walk-over for Cantrill, only about one-fourth of the nominal vote being polled. In Clintonville precinct only one vote was cast. Paris gave Cantrill 216 and Murphy 4, the balance of the county giving Cantrill 358 and Murphy 4. The total vote of the county was, Cantrill 574, Murphy 8.

The nomination of Congressman Cantrill means that he will oppose the Republican candidate this fall for election as Congressman from this district. The returns Saturday indicate that the regular election in November, Mr. Cantrill will poll the entire strength of the Democratic party in the district, and will be re-elected for another term.

In discussing the vote in the Seventh district, Congressman Cantrill said at his headquarters after he had received the full unofficial returns: "I am very much gratified over the result, considering that I made no active campaign and did not make a speech throughout the entire section. The vote was about one-fourth of the normal Democratic vote of the district and that is a good per cent. of it in view of the circumstances."

The unofficial returns Saturday night from twelve counties composing the Seventh District was as follows:

County	Cantrill	Murphy
Bourbon	574	8
Clark	430	19

"THE VIRGIN OF STAMBOUL" AT GRAND AND ALAMO

As a special offering the Grand and the Alamo will for to-morrow and Thursday present to their patrons, the screen picture par excellence, "The Virgin of Stamboul," a production which cost \$500,000 to make. There will be no advance in prices.

The picture stars Priscilla Dean in a characterization unsurpassed in the history of silent drama. Sari is a beautiful dancing girl of Stamboul. Her strange meeting with the young American commander of the Black Horse troop, composed of the scum of Asia, her wooing by the powerful sheik, her escape from the harem, her wild ride across the desert at the head of the untamed cavalry, are but few of the many thrilling incidents and thrills in this wonderful Universal-Jewell production.

Boardman, located on Seventh street, near High, one of the best and most modern in a city of fine homes, will be offered at public sale on Wednesday, August 18, at two o'clock, by Harris, Speakes & Harris. Written or printed description will not convey an adequate idea of this home. Go and see it for yourself. Completes all the way through. Every part of it modernly equipped with conveniences.

INSURANCE MEN BANQUET

Dale's Restaurant was the scene of an animated gathering Friday night when representatives of the American Life & Accident Insurance Company of this district were seated at a substantial supper tendered by Superintendent Frank Trisler. Judge Ernest Martin, as the "only outsider" and especially invited guest, did the honors as toastmaster.

The guests were: Superintendent Frank Trisler, N. B. Hedges, Jos. C. Dotson, Paris; F. C. Hedges, F. M. Henry, R. A. Burk, G. M. Shaw, Lexington; A. J. Alderson, Lancaster; T. P. Bishop, Danville; W. G. Crutcher, Richmond; N. A. Wilkerson, MC Sterling.

GOV. COX INAUGURATES DEMOCRATIC CAMPAIGN

The Democratic Presidential standard, with the League of Nations and progress its peak escutcheons, was marched into the 1920 campaign by Governor James M. Cox, at Dayton, O., Saturday.

A throng of cheering Democrats estimated variously at between 30,000 and 75,000 witnessed Governor Cox's acceptance of party leadership in the Presidential contest, following formal notification by Senator Joseph T. Robinson, of Arkansas, chairman at the San Francisco convention, of its choice.

To the ceremonies at the Montgomery county fair grounds, Governor Cox, with Franklin D. Roosevelt, his running mate, at his side, marched for a mile in the broiling sun at the head of a parade of Democratic delegations reviewed at the grounds. Presence of the nominees in the parade was an eleventh hour thought of the Governor's, who had planned merely to review the Democratic hosts, which came in thousands from Ohio and other States. The parade line alone, sprinkled with two score of bands, was estimated to contain close to 30,000 marchers.

For two hours the Governor, in his address of acceptance, kept the vast throng cheering as he gave with emphasis and clarity his campaign policies. He made the League his paramount declaration, declaring he stood for American and world peace by its adoption, with interpretations preserving its vital plan. He declared the League was a part of the Democratic offering of progress as against Republican reaction. His advocacy of the League drew lengthy demonstration from his audience and statements of approval from party leaders gathered for the Democratic ceremonial.

Two reservations he has suggested to the League covenant were emphasized by the Governor. Regarding the controversy over Article X, he was cheered loudly in comparing it to the Monroe Doctrine, with its peace record. The Democratic legislators also shouted approval of declarations for women suffrage, law enforcement — his only inferential reference to prohibition — reduction of taxation and scores of other issues.

The candidate's address closed as evening fell on a day of Democratic jubilation. Rain early in the day, which threatened to mar the event, gave way to bright sunshine by afternoon, with sultry humidity, but shortly before the Governor con-

ORPHAN BRIGADE WILL HOLD REUNION SEPT. 30.

Arrangements for the annual reunion of the Orphan Brigade at Paris, September 30, were made at a meeting of the Executive Committee held in Louisville recently. Committees were appointed as follows: Finance, I. P. Barnard; Music, Maj. John H. Leathers; Transportation, Col. H. L. Stone; Program, Thos. D. Osborne. The latter is secretary of the organization and Gen. Wm. B. Haldeman is president.

The Louisville Trust Company was elected treasurer to succeed Capt. John W. Green, who died some time ago. Only a few hundred of the original 7,000 men composing the Orphan Brigade at the beginning of the Civil War are expected at the reunion.

"North Middletown, Aug. 6.

"Editor BOURBON NEWS:
"I send clipping from the Lexington Herald of the 5th, which contains the following erroneous statement in regard to the coming reunion of the Orphan Brigade.
"Only a few hundred of the original 7,000 men composing the Orphan Brigade at the beginning of the Civil War are expected at the reunion."

"The records, as well as the best informed authorities, does not place the numbers composing the Brigade at over 5,000, and in my judgment, nothing but the remembrance of the splendid avation and unbounded hospitality extended these old heroes twenty-eight years ago will induce and encourage more than fifty of these old, decrepit and time-worn veterans to undertake the trials and risks of the trip to Paris on September 30th.

"Please publish this to correct and allay any misapprehension this article may have produced.

SKELETON AT WHEEL

A dragline dredging out the Miami River in the flooded district near Hamilton, O., the other day brought from the bed of the river an automobile with a skeleton at the wheel.

The machine was evidently of the 1912 model and three tires were fully inflated. The machine was badly rusted.

It is believed the machine and occupant were in the flood of 1912. The car had an Ohio license number, 14,296.

cluded, another light rain poured upon the crowd, causing many to leave and somewhat marring the closing event.

DEMEANING THE HIGH OFFICE OF GOVERNOR

When the Governor of Kentucky undertakes personally to conduct litigation for the State, he adds neither to the dignity of his office nor to the strength of the State's cause, and he sadly demeans both the office and the incumbent of the office of Attorney General, and the whole thing takes on an air of partisanship calculated to bring justice into disrepute.

RAISING THE DAIRY HEIFER

Circular No. 80 prepared by J. R. Dawson, of the College of Agriculture, Extension Division, which may be obtained from the Kentucky Experiment Station, presents for consideration some of the chief problems in dairying and suggests for their solution a discussion of what is done when the whole milk is sold and when skim-milk is available. Extensive consideration is given in the circular to winter rations for dairy heifers and to other practical winter rations.

THAT TOWN OF BOSTON

A man named Ponzi lives in Boston. He surely never got, that name wished on him anywhere near Boston harbor. Ponzi was long-headed enough to plant large sums of money in different European countries, and after he had established his banking connections abroad he began to deal in foreign exchange. American dollars are of full value. These he converted into depreciated foreign currency. Then by switching his credits from one country to another he finally worked out the problem so that the money he had dealt in abroad for himself and customers finally got back to the United States through a clever process of manipulating worth par. Ponzi agreed to pay fifty per cent. profit to his investors for the use of their money for three months. The surprising part of the performance developed by an investigation was the apparent proof that Ponzi was making good. At the same time he cleaned up several million dollars for himself in a few months.

About a dozen years ago the United States Government wished to float a big bond issue. Everyone was invited to bid and a Boston man was the lowest bidder. The astonished bankers of the country found that the Bostonian had no other capital invested in the bond enterprise beyond the two cent stamp which he had used to mail his bid to Washington. Nevertheless the lowest bidder got the job, and almost before the Government could notify him to that effect the big banking houses got behind the Boston "postage stamp bid." The result was that the far-sighted Bostonian made a lot of money.

But why shouldn't Boston lead? Didn't it have the first big American tea-party? Wasn't it the original Hub of the Universe; and hasn't it the only State House that is decorated with a Lion and a Unicorn to signify the ancient heritage of England? Boston has its Bunker Hill, its old North Church; and Lexington and Concord hard by. Why, even Henry Cabot Lodge and Calvin Coolidge live in "Boston's home State of Massachusetts." Tom Lawson also registers from Boston.

ADVERTISING'S ECONOMIC EFFECT.

Advertising has a profound effect on retail distribution and it works for efficiency.

It is complained by merchants that there are too many people in their business. There is a common tendency, when a few men get a good trade built up and are serving the public well for one or two to push in and divide up the trade. Sometimes the new men do better work than the old ones. In most cities, retail trade could be conducted with better service to the public if there were fewer stores. A few efficient stores gives better service than a lot of places that do too small a business to do it on close margins.

Advertising is the means by which this tendency is corrected. It eliminates the unfit, and makes it impossible for an inefficient store to survive, or to get any considerable share of business.

Advertising tends to concentrate the business in the advertised stores. As these stores get a larger volume of trade, their expenses are relatively less. When they double their trade as the result of publicity, the charge that has to be made against each article for overhead expense, clerk hire, etc., is reduced.

It makes a big difference in the cost of goods, whether space occupied, clerks employed, overhead expense incurred, are large or small for the business done. Advertising enables a store to acquire a sufficient volume to keep its plant and working force running on an economical basis.

This does not always mean that the large store sells cheaper than the small one. If the small one stays in business, it is usually because it renders some service exceptionally well. But as it increases sales through advertising, it is in position to sell cheaper than previously.

SELLS BANANAS BY POUND

R. G. Zierdt, a Hazleton, Pa., grocer, finds selling lettuce, salad and bananas by the pound an excellent method of satisfying his trade.

He started the plan because he discovered when he disposed of these goods by the head or by the dozen that the one patron who called early got the best in stock and paid the same for a large head of lettuce or twelve big bananas as did the one who came later and got the tail end of the assortment. This circumstance suited the early bird, but did not appear quite so attractive a proposition to the person whose shopping was conducted later in day.

Now people buy by the pound and can get the kind of stock they want. If they ask for large bananas or for the big heads of lettuce or of salad, that is what they are served, but they pay more than the one who seeks the smaller items of the goods on sale.

War in Mexico must be a very insipid affair compared to the kind Sherman once referred to in language that has become famous.

NEW WARDEN FOR STATE REFORMATORY

FRANKFORT, KY., August 9.—Reforms being inaugurated by the State Board of Charities and Corrections reached the State Reformatory and the Central State Hospital when the board announced appointment of William H. Moyer, prison expert of New York, to succeed L. R. Davis as warden of the reformatory September 15 and of Dr. Bertrand L. Jones, Detroit, to succeed Dr. F. L. Peddicord as superintendent at Lakeland September 1.

At the same time the board gave token of the complete divorce of the department from politics by abolishing the system of awarding insurance to political favorites. It is arranging to let the insurance on institutions in a lump, to be apportioned among all companies in Kentucky, the companies, in turn, to pro rate the commissions among their own agents.

Mr. Moyer has had a long and successful experience in the administration of prisons. For twelve years he was warden of the Atlanta prison. He had charge of that institution during its constructive period and took rank among wardens of the country as a successful administrator. He latter was appointed warden of the New York State Prison at Sing Sing. Dr. Byers, Commissioner of Public Institutions, said:

"He is of strong personality, thoroughly in touch and familiar with the highest ideals in development of prison reform; has strong business qualifications, is a good disciplinarian, humane and practical."

"It was not possible for the board to find in Kentucky any man with the experience and training the board feels essential to the highest development of the institution. In obtaining the services of Warden Moyer, the board feels that it is conserving the highest interest of the prisoners and the State, and that he will aid in a large way in the development of the policy of the board in developing a standard and management which will be second to none."

More recently Mr. Moyer has been in charge of welfare work under Presbyterian General Board, looking especially after the dependents of prisoners. This has rounded out his experience from every angle of the prison question.

Dr. Bertrand L. Jones, of Detroit, who succeeds Dr. F. L. Peddicord as superintendent at Lakeland, is a graduate of the University of Louisville and for many years practiced in Louisville. Following that he took up special work in psychiatry at the Kalamazoo State Hospital, Michigan, and was later resident physician and first assistant at the State Psychopathic Hospital, Ann Arbor, Mich.

Dr. Jones took up special studies in neurology and psychiatry at the Philadelphia General Hospital and at the clinics of the University of Pennsylvania under Dr. Spiller and Dr. Weisenberg. He is now chief of the out patient department of neurology at Harper Hospital, Detroit, which position he now holds. He is also attending neuropsychiatrist at the Detroit City Receiving Hospital.

Dr. Jones, before leaving Louisville, was instructor in the Kentucky School of Medicine. He is a graduate, Master of Arts degree, of the University of Chicago.

LIFE AT THE SUMMER RESORTS

There is a lot of money in circulation, and the summer resorts are probably doing the biggest business in their history. The automobile crowd may groan at the high prices of the swell hotels. But people of moderate means will often pay high for a brief contact with the idle rich, but they escape as soon as possible with what remnants of cash they retain.

The natives of such resorts may not do much through the winter, as the spenders of the vacation season are a sufficient harvest. At home you easily tote your suit case to the station, but it is a disgrace at the stylish resort to carry it from the desk to the elevator. So you must pay all along for your temporary fling as a swell.

To some people a summer resort is dull and boring unless it has all the sports and pastimes of city life, with an incessant round of movies and dance halls and trick end novelty shows. Crowds by tens and hundreds of thousands flock to these jazzy centers, in the vain endeavor to occupy their frequently vacant minds. Everybody visits them to study human nature, but sensible people feel that a very little of that life goes a long way.

All over the country you find a third type of resort, where people of quiet tastes can rest from the grind of labor. They find in country life and scenic beauty a healthful influence, which quiets the tired nerves, and tones up mental and physical ability.

There one meets the people who are doing the finest and most genuine work of the world, and who keep their natures sunny and clean and bracing amid all the false excitement of the times. A vacation spent in such surroundings is a blessed experience and passes all too soon.

MAYBE FOLKS HAVE ALL THEIR CLOTHES BOUGHT

Many of the textile mills of the country have been running on a short-week schedule; while some have closed down entirely for indefinite periods. The mills say that there is a lack of orders. The government's figures show that there was a drop in wool consumption of nearly 17,000,000 pounds from the average for the six months of 1920.

Make your every word, your every letter, your every thought contagious.

POWDER AND PAINT ARE W/ C. T. U. TARGET NOW.

War on powder and paint has been declared by the same women who were so important a factor in effecting the passage of the prohibition amendment. Fourteen hundred women, constituting the membership of the Kings County (New York) Women's Christian Temperance Union, will form the nucleus of the organization to start the onslaught on paint and powder excess.

At the last meeting of the season of the Frances Willard Union of the W. C. T. U., New York, Mrs. George F. Pashley, State Superintendent, announced the new platform of the organization and was hailed with loud applause. "By dint of persistency, influence and precept, the W. C. T. U. will endeavor to wipe out this cosmetic evil," Mrs. Pashley said. "The modesty of our young girls in dressing, the universal popularity of paint and powder, have reached the stage where it behooves all Christian women to put forth their best efforts to save our girls from these demoralizing influences."

Mrs. Pashley said she thought things had grown much worse since the war. This she attributed to the fascination of girls for men in uniform. "Trying to cater to and please the soldier," she said, "has led to lax manners, which have brought calamitous results."

WOMEN IN TRENCHES

(Richmond Register)
That two-fifths of those employed in the tobacco fields of Madison county are women and girls is evidence brought in by an "actual count" of one close observer whose business requires frequent trips through various parts of this and other counties. In some localities the percentage of female workers is said to be much greater, but this is the report on the local fields. It is claimed to be a greater percentage of women and girls than ever before performed this work.

Keep this Door Open Too—
Mr. Merchant!

Would you lock one of your doors for the price of a telephone?

When your telephone is busy (with either incoming or outgoing calls) an important business-getting door of your store is closed and locked. Maybe the customer who wants to telephone you an order will wait until that door is open again—but maybe he won't!

If your present equipment is often in use, you might make a profit on another telephone or "trunk"—or on even several more; a good many merchants do.

We can list them all under the same number, using any of your lines that is idle when you are called. It will pay you to make it easy for your customers to reach you on the telephone. Think it over.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Says Nothing Like Plain Argo-Phosphate to Put On Firm, Solid Stay-There Flesh and Muscle and Increase Strength, Vim, Vigor and Nerve Force.

Physicians claim there is nothing that will increase weight, strength and endurance like organic phosphate commonly known by druggists as argo-phosphate; it is inexpensive and is sold by all leading druggists everywhere under a guarantee to give satisfaction or money refunded. Weakness and thinness are usually due to starved nervous conditions.

Our bodies need more phosphates than are contained in the foods we eat.

If you wish a more rounded figure and plump well-developed arms, neck and bust in place of hollows you should simply take plain argo-phosphate, as it builds up and restores run-down nervous conditions by phosphatizing the system. It transforms the appearance and an increase in weight it oftentimes quickly produced.

The increase in weight also aids in improving the general health. Sleeplessness, nervousness, lack of energy and ambition quickly disappear.

Pale cheeks are changed to rosy ones and dull eyes become bright.

Miss Lena Brown of Atlanta, Ga., who only weighed 90 pounds reports that she gained 10 pounds in two weeks time and says argo-phosphate has made a different person of her and she has never felt better in her life.

SPECIAL NOTICE—Owing to the fact that so many physicians and druggists are recommending argo-phosphate for relieving all nervous, worn-out debilitated conditions and the unusually large sale for argo-phosphate there will be found in the market numerous substitutes for the genuine article. All imitations are inferior preparations and owing to its unusual flesh producing qualities it should not be used by any one unless they desire to put on flesh and increase in weight.

YOU CAN'T AFFORD THE STAR BOARDER.

If you free the poultry of lice, the house from mites, and then give the birds a good balance, ration as is recommended in Circular 66, a publication prepared by the College of Agriculture, the number of early moults will be reduced, but if the hen is molting it is because she has stopped laying. She is a star boarder and you can not afford to keep her.

PISTOL TOTERS MUST SERVE TIME.

Governor Morrow has announced that hereafter he will issue no pardons to anyone found guilty of carrying a pistol, and that in the future all pistol toters will have to serve their sentences. Now, if Gov. Morrow will announce that he will refuse to issue any more unless all the jury that tries the case, the Judge who presides, and the facts justify absolute belief in the innocence of the accused the State and society will be better off.

Everything you and I know we learned from some one else. Isn't it so?

OUR LOCAL MERCHANTS AND CLERKS ARE COURTEOUS

Some Paris people we know, or used to know, gave as an excuse for buying goods away from home, that they preferred to go to some place where they were not known personally, so that they could slip out easily if they didn't want to make a purchase.

Many years ago, even in Paris, as we have noted merchants and clerks would sometimes get very mad if prospective customers and shoppers didn't buy. But the modern merchant has long ago gotten away from that disagreeable trait. If they can't sell an article, they are anxious to be particularly polite, so that the customer will at least leave the store with a good feeling and a disposition to come again.

It would be a hard matter, according to our view, to find a city or town in all Central Kentucky where there is as much courtesy shown as there is in Paris. Our merchants and their employees take special pride in their readiness to show goods, and most certainly show a wonderful good nature and infinite patience in dealing with the whims of many-sided customers. They don't want any customer to feel that he or she must make a purchase, if they are not satisfied with the goods and if the prices are not right.

VOCATIONAL AGRICULTURE TRAINING.

In order to meet the requirements for teaching vocational agriculture in the high schools of Kentucky, twenty-eight men matriculated in the summer school, University of Kentucky, and received special training in fruit growing, farm management, vegetable gardening, feed and feeding, breeds and types of farm animals.

The State plans for vocational agriculture to set up certain standards for vocational teachers. Some of the men required to teach agriculture in high schools do not meet all the requirements as yet and the value of the six weeks training for these men is such that each year the enrollment for these special classes is increased.

FEDERATION OF LABOR TO MAKE FIGHT.

CHICAGO, August 9.—The Chicago Federation of Labor has authorized its president, John Fitzpatrick, to appoint a committee of 15 for the announced purpose of "actively going to battle with the United States Chamber of Commerce on the 'closed shop' proposition and to devise means of preventing open shops. Mr. Fitzpatrick said exact methods of battle will be arranged by the committee, declaring that the first action "would bring the fight out into the open."

THESE BE DOG DAYS.

We are now in the midst of "Dog Days." Everybody is familiar with "Dog Days," but few know by it is so called. The period includes the time from July 3 to August 11, or twenty days before and twenty days after the rising of the dog star, Sirius, in conjunction with the sun. According to the theory of the ancient astronomers the combined heat of the sun and the dog star are responsible for the excessive hot weather experienced during this period. However, later astronomers have learned the rising of the sun and the dog star at the same time is a mere accident of nature. In time the dog star will rise in the depth of winter. The Egyptians began their year with the rising of Sirius, which coincided with the flooding of the Nile.

Big Demonstration Sale To-day and Wednesday, Aug. 10th and 11th

When the "Red Star" was put on the market the secret of efficient cooking with the cheapest kerosene was made public. The perfection of the "Red Star" made possible for the first time the use of kerosene or other cheap oils without the aid of wicks or substitutes for wicks. It made possible a complete vaporization of all the heat units of oil and increased heating efficiency over thirty per cent.

The "Red Star" is really a gas range. It produces its own gas from any grade of liquid fuel. It increases heating efficiency over thirty per cent.

Competent, official judges and countless housewives have proclaimed it to be the most efficient and economical oil stove ever offered to American women.

Famous "Double - Ring Flame" Burner

It is the patented eight and one-half pound burner that is responsible for the great achievement of the "Red Star" oil range. This burner vaporizes all of the heat units of the fuel, leaving no trace of odor or smoke. It heats quickly. It can be heated to a fiery red heat or held to a low, even flame for slow cooking. It concentrates a double ring flame directly under the utensil.

Beautiful, Efficient, Economical

Not only is the "Red Star" efficient and economical to operate, but it is a beautiful range. It is designed like a city gas range, a credit to any kitchen. It is raised on substantial legs, which permits sweep-

ing under and around the stove. It is a sturdily built stove, capable of a lifetime of faithful service.

CARNIVAL COMPANY IN RAILROAD WRECK.

Two members of the McDaniel Amusement Company were killed outright, a third man is dying and half a dozen others were painfully injured when a freight train, on which they were riding was derailed at Coalton, 10 miles east of Olive Hill, Ky., at 3 o'clock Sunday afternoon.

The wreck occurred on the Lexington Division of the Chesapeake & Ohio railroad.

The McDaniel Company spent some time in Paris recently, where they had hoped to fill a week's engagement. They rented a large lot on the Winchester pike, but the owner reconsidered and refused to close the deal, owing to opposition from residents of the vicinity.

P. G. McDaniel, manager of the carnival company, told newspaper men in this city that the jinx certainly had a grip on the company, as they had experienced all kinds of bad luck recently and could only wonder what would befall them next. The company spent a week here, hoping to get an opening, but gave it up and left for other fields.

The amusement company had been operating a carnival at Olive Hill. McDaniel said he supposed the men boarded the cars carrying the company's paraphernalia in order to save railroad fare. He was not aware that any employee of the company was on the freight train, he said, until he received word of the wreck. The company was billed to participate in the Elks' Fair this week at Ashland.

RELIGIOUS.

The annual meeting of the Bourbon County Sunday School Association will be held in the Christian Church at North Middletown, on Thursday, August 19. An invitation to attend is extended every one interested in Bible School work.

The 100th session of the Kentucky Conference of the M. E. Church, South, will be held in Lexington, beginning September 1, at the Park Avenue Methodist church, the feature of the conference being the centennial celebration of Methodism in Kentucky, the program of which was announced Saturday by the committee in charge. Bishop Collins Denny, of Richmond, Va., will preside.

CALLING MEETING OF NEW WOMAN'S CLUB.

There will be a meeting of the newly organized Bourbon County Federation of Women's Clubs on the lawn at the home of Miss Lucy B. Simms, on Second street, Wednesday afternoon, August 11, at 2:30 o'clock. If the weather is threatening the meeting will adjourn to the residence of Miss Simms. The constitution will be adopted and departments formed. All women of the city and county who are interested in the Club movement are invited to be present at this meeting.

NOTES FROM THE LODGES

Mrs. Charles B. Dickerson was initiated into the mysteries of the Pythian Sisterhood at their last meeting, held in the K. of P. lodge room.

In the financial report recently submitted to Bourbon Lodge of Odd Fellows, it was shown that during the year the sum of \$1,842.10 was distributed for charity, benefits and support of Widows and Orphans.

AUTHORIZES SALE OF COUNTY ROAD BONDS.

John T. Collins, of the Bourbon County Road Commission, who recently sold \$100,000 worth of Bourbon county road bonds, was empowered by the Bourbon Fiscal Court to continue the sale of bonds until the full amount, \$500,000, had been disposed of. Mr. Collins was authorized to sell an additional issue of \$50,000 worth of road bonds.

Eight dollars a day for farm labor is quite a change from the old days, and there will be quite a change in the price of flour from the old days, too.

A Carlisle young man drove two miles alone before he discovered that his sweetheart had fallen out of the automobile. Love-making in that city must lack some of the ardor that characterizes it around Paris.

A Paris form player, who has had more or less success in picking winners, says that one way to pick a winning race horse is to select a steed which does not run so long in one place as the rest of them.

Any old plug of a man may give an automobile horn a little too and the average person wants to wonder what would befall them next. The company spent a week here, hoping to get an opening, but gave it up and left for other fields.

Paris man in broad daylight drove his machine through a rope stretched across Main street at the corner of Main and Seventh, and then in an indignant manner wanted to know why the city didn't have a watchman stationed there to warn people! Yee-ow!

Politics is a rough business for the politician. He builds himself a platform from the odds and ends that lie around loose, and gets his friends to drive the nails for him. All the good deeds he has done he has to relate himself, and all the bad ones are brought up by his opponents.

No candidate for public office in Bourbon county is as good as he says he is, and none is as bad as his opponents say he is. Most people distrust all professional politicians, but most of them deserve less censure than they get. The best politician is usually the best man in more ways than one.

Every country editor knows that there are some friends he is bound to see every year. It's a part of the game, and he has to take it as it is. To keep everybody loving us we'd have to keep out of the really interesting happenings that go on around us, and tone down our views of everything to nothing.

Two fire chiefs at the great national convention recently held in Canada had a hot argument as to who should name the parson to open the convention with prayer. Fire Chief Swift McGoldrick, of the Paris fire department, in commenting on the affair, said the two chiefs were evidently greatly "put out" by each other's actions.

A Paris woman who recently received a summons to appear in Police Court at a certain time was very much put out thereby. In explaining the matter to a friend she said: "I have certainly received the citation, but I shall not appear, could not, in fact. Not only am I not socially acquainted with Judge Martin, but the whole tone of his communication is so impossible that I absolutely refuse to know him."

In a recent issue of THE NEWS there appeared a typographical error, insignificant and absolutely harmless in itself. Yet no less than a dozen friends of the paper took the time and trouble to call our attention to it, losing sight of the importance of the item itself. When a baseball player makes an error he can get out with a good alibi, and he always has one. But nobody will believe that the mistake in a newspaper item is a typographical error.

Is it against the law to fill an automobile tank with gasoline while the engine is running? It is not mentioned in either the Kentucky Statutes or the city ordinances, nor do they mention the kindling of fire with gasoline or kerosene, or blowing down a gun barrel to see if it is loaded. Yet, many a poor fool has gone kicking to the Great Beyond for trying the experiment, eh?

Delando, the mystic, whose engagement at the Paris Grand, proved a big drawing card, did not confine himself to solemnly revealing business matters, but occasionally gave inquirers some humorous advice. Some one sent up a request for advice regarding a prospective trip to Cuba. "I see success for you should you decide to go to Cuba," said Delando, "but why should you go there when there's so many bootleggers close around?" The reply drew a storm of laughter from the audience—but Delando's countenance was as stern as that of a minister delivering a sermon.

Two charming children in a High street household are having great fun in seeing which one can discover the greatest number of "big words." Recently a member of the household found the following note on his writing table:

"Dear Nunkie: 'Aint I nice? I made up your bed. Tee hee. Brother and I have found a new word to add to our vociferous effervescent macadamized vocabulary. It is

REAL ESTATE TRANSACTIONS.

Through the real estate firm of H. L. Mitchell & Son, Jake Elvove sold Saturday, a house and lot on Virginia avenue, in Paris, to Robert Turner, for \$1,250.

The Paris Realty Co. sold for J. Elmer Boardman his cottage on Cypress street to Gilbert M. Thompson. The price was not made public, but it is understood to be an advance over what Mr. Boardman paid. Mr. M. Thompson is from Cincinnati and is moving his family to Paris to live.

AUTOISTS ARE LEARNING

Through the efforts of the Paris police owners of automobiles are gradually learning the advisability of conforming to the laws regarding the parking of machines, keeping within the speed limit, and in general observance of the traffic laws. There is considerable complaint, however, in regard to the reckless manner in which children of tender age drive machines about the streets of the city, and warning is given to parents that in the future the laws relating to the employment of children under the legal age will be rigidly enforced.

The firm will deal in coal, feed, seed and building materials. Mr. Hensley will be general manager of the business. He will move his family from Winchester to Millersburg as soon as the new firm is ready for business.

EXTERMINATE THE BORER

A unique method has been adopted by the Department of Agriculture to fight the dangerous little insect known as the moth borer which is working such havoc with our sugar cane. After trying many plans to exterminate the borer the Bureau of Entomology has sent its experts to Cuba to import a bug or parasite which lives upon the moth borer. Two shipments of these parasites have been brought from Cuba and an attempt is being made to propagate them in large numbers in Louisiana. An immense force of these parasites must be raised and mobilized in order to war effectively against the countless moth borers which are now attacking our sugar crop, but the scientists are confident of ultimate victory over the borers.

RETURNS AFTER LONG ABSENCE IN CANADA

Declaring that he had returned to Paris for the purpose of clearing up a number of financial obligations he had left behind when he left Paris six years ago, Bunyan Pence, former farmer and tobacco dealer of this county, came back to Paris, Saturday night. Pence stated that he had been in Canada since he left this city.

Pence left Paris on the night of December 23, 1919, leaving behind him a number of checks which the banks of Paris refused to honor, declaring he did not have sufficient funds on deposit with which to meet them. Nothing was heard of the missing man for a long time, when it was learned that he was out of the State. Pence announced that he was prepared to clear up his obligations. He will remain at the home of his mother, Mrs. Frances Pence, for some time, after which he and his family will return to Canada.

We meet so many who know it all that we have just caught the meaning of "ignorance is bliss."

heterogeneous, or something like that. A. B. HANCOCK YEARLINGS BRING GOOD PRICES

The sale of yearlings conducted by the Fasig-Tipton Company, Saratoga, N. Y., Friday night, realized a total of \$128,950. Yearlings in the A. B. Hancock consignment from his Claiborne Stud, near Paris, were prominent in the list of top prices. One of his brown colts by Rockview, out of Gold, was purchased by W. R. Midgley, representing the Green Tree Stable, for \$14,000. Mr. Midgley purchased a chestnut filly out of Network for \$12,500, and a brown colt by Celt out of the Imported Larkwater for \$8,000.

J. K. L. Ross bought for \$12,600 a chestnut colt by Jim Gaffney—Alice Dudley from the consignment of Charlton Clay, of Paris.

HAIR AND HEAVY RAIN DAMAGE TOBACCO.

A heavy hail and rainstorm passed over sections of the county about noon Friday, doing considerable damage to growing tobacco crops in the fields. The hail was especially severe in one section of the county, where it damaged the tobacco on the farms of Sam Houston and Calvin Jones. Mr. Jones had his crop insured.

Heavy rains Saturday, Sunday and early yesterday morning added to the farmers' joy over relief from the drouth. Streams in the county are bank full and plenty of water in ponds for stock purposes. Lightning did some damage in the county being especially severe in the Millersburg vicinity.

Tobacco growers in Nicholas county report much damage done to crops by the heavy hailstorm which struck that section Friday and Saturday.

Five sheep and three hogs were killed Saturday afternoon when lightning struck the barn of George Lusby, five miles from Georgetown. The barn was not damaged. Telephone and telegraph service was crippled as a result of the storm.

Whether the general rain over Central Kentucky, Saturday afternoon and night will cause the spread of rust and "wild fire" in the tobacco fields cannot definitely be determined as yet, Dr. W. D. Valleau, plant pathologist at the Experiment Station said, but he stated he did not think the damage would be great, as there was little wind.

On the other hand, tobacco and all other farm crops and gardens were greatly benefited by the drizzling rain. The rain came at a very opportune time, as the crops were suffering from the continued drouth.

Writing Paper You'll Like . . .

We have all that's best and latest in stationery. For instance, you want a box of paper for 35c. We have the newest in fine fabric papers at that price. These are handsome packages of first-class stock, and the 35c price means that we buy right from the makers and give you the advantage of the middleman's profits we cut out.

For 50c, 60c and 90c we have such papers as you can get nowhere else for the money.

Be sure that our stationery is stylish and up-to-date. It is all new stock, and we recommend no papers that are not good form.

Good values in pound papers, both in fabric and bond stocks. A bond paper by the pound costs you less per letter than a cheap paper bought by the box.

We also carry a full line of inks, pen points, pen holders, fountain pens, etc.

IMPORTANT MEETING PARIS COMMERCIAL CLUB

The Paris Commercial Club will
hold a meeting in the County Court
room in the court house to-night
at 7:30 o'clock. Business of im-
portance. The members are urged
to attend this meeting. Show your
interest in the Club by being pres-
ent.

CARD OF THANKS

The members of P. I. McCarthy
Council, No. 1955, Knights of Col-
umbus, extend to the good people
of Bourbon and other counties their
most sincere and heartfelt thanks
for their liberal patronage and
assistance, which made the picnic at
Paris on August 4, such a grand suc-
cess.

PAINTERS ARE BUSY.

House painters say this has been
the busiest season in their line in
the history of Paris. The great
amount of work started in the
spring has been continued without
any indication of a decrease. The
clean-up and paint-up campaign is
largely responsible for the decor-
ators' activities. The men are mak-
ing good wages and making full
time.

DETROIT VAPOR OIL STOVE DEMONSTRATION

Mr. Wells, an expert from the

SALE OF DUROC JERSEY HOGS.

Thirty-six head of Duroc-Jersey
hogs, sold by H. E. Bullock, of
Greendale pike, netted \$3,495, an
average of \$97 a head. The top
price was \$210, which was paid by
Brinkley Duroc Farm, of Brinkley,
Ark., for G. F. Orion Fannie, which
has been bred to Colonel Ultimus,
the \$10,000 boar from Mayfield
Farms. The following Bourbon
county men made purchases at the
sale: Walter S. Meng, North Mid-
dletown, Ultimus Model J, \$85; Wm.
H. Shropshire, Paris, Fancy Loretta
4th, \$47.50.

The big Kentucky series of Du-
roc-Jersey swine sales came to a
close Saturday at McKee Brothers'
Forest Home Farm, Versailles,
when they sold forty-three head for
\$16,465, an average of \$382.90,
with a top of \$1,375, the highest
price of the season.

Walter S. Meng, of North Mid-
dletown, purchased Gilt, by Edward's
Sensation, for \$390.

BOURBON FARMING CONDITIONS

The week-end brought showers to
many sections of the county, reviv-
ing the crops and renewing grass
for grazing. The downpour was
capricious and varied, some sections
getting a plentiful supply, while
others were not so fortunate.

Most of the early planted tobacco
has been topped. Considerable to-
bacco had begun to "fire" from the
effects of the dry weather, and one
farmer had begun to cut his tobacco
in order to save it.

The really important work on
farms has been almost finished.
Threshers have finished their work.
The wheat and oats were never bet-
ter in quality. The same is true of
the hay crop, which is abundant
and fine. New hay is selling for \$25
to \$28 a ton.

Over five hundred head of fat
cattle were shipped to the Eastern
markets the past week. Several
thousand lambs have been shipped,
for which the purchasers paid thir-
teen cents a pound.

Gardens are doing nicely since
the rains, and garden truck is com-
ing freely to the local markets.

WOMEN'S CLUBS FEDERATE

Representatives of the Paris Liter-
ary Club, the Progressive Culture
Club, and the Paris Art Club were
present at a meeting held at the
residence of Mrs. William Myall
yesterday afternoon. The meeting
was called for the purpose of com-
piling the organization of a Club
Federation, which was decided upon
last spring by the study clubs of
the county.

Mrs. Lafon Riker, of Harrods-
burg, president of the Kentucky
Federation of Women's Clubs, and
Mrs. H. G. Reynolds, of Paducah,
treasurer of the Federation, were
present at the meeting, and ad-
dressed the Club members on the
objects and aims of the organiza-
tion. Under the arrangements per-
fected yesterday all the Women's
Club of the city and county will be
merged into one organization, un-
der the general title of The Bour-
bon County Federation of Women's
Clubs. Great interest was mani-
fested in the proceedings by the
ladies.

The organization of the Federa-
tion was completed by the election
of the following officers: President,
Mrs. O. L. Davis; First Vice-Pres-
ident, Mrs. Wm. G. Talbott; Second
Vice-President, Mrs. W. H. Whitley;
Third Vice-President, Mrs. Thos. W.
Allen; Recording Secretary, Mrs.
George W. Stuart; Corresponding
Secretary, Miss Mildred Collins;
Treasurer, Mrs. Chas. Goldstein;
Auditor, Mrs. Frank P. Lowry.

WARD CHALLENGES SHROP- SHIRE.

Interest among the trap shooters
of Paris and Bourbon county is
running high over the prospects of
a match between J. Quincy Word
and Squire John N. Shropshire, both
of whom have proved their prowess
at the traps, in contests both local
and in State tournaments. Mr.
Word has issued a challenge to
Squire Shropshire to shoot for a sil-
ver cup won by the latter at the
meeting of the Kentucky Trap
Shooters' Association held recently
in Louisville. The contest is to be
staged at the grounds of the old
Hilltop Gun Club on the farm of
Alfred Clay, near Austerlitz. The
challenge was accepted by Squire
Shropshire. The shoot will be held
on Labor Day, September 6.

At the Louisville meeting Squire
Shropshire won the silver cup by
breaking 97 clay pigeons out of a
possible 100. His nearest competi-
tors were Woolfolk Henderson, with
96, Ben Goff, with 96, and Zach
Offutt, with 96. Squire Shropshire
won the cup in 1919 and must win
it again before he becomes its per-
manent owner.

BOURBON GUN CLUB

The Bourbon Gun Club held their
regular shoot at the Club grounds
in East Paris last Friday after-
noon. Fifty shooters took part in
the sport. The trophy that was
donated by Shire & Pithian result-
ed in a tie-up of four shooters.

In the first shoot-off of the tie at twen-
ty-five targets Mr. R. C. Ruggles
was returned the winner, with
Amos Turney as the runner-up.

Those breaking twenty or more
out of twenty-five targets were as
follows:

Dr. R. R. McMillan, 25, 23, 22;
Alfred Clay, 22, 24; Aylette Buck-
ner, 20, 24; R. C. Ruggles, 22, 22;
Walter W. Kenney, 24; James Wil-
liams, 21; James W. Thompson, Jr.,
21; Ray Taylor, 20; Douglas
Thomas, Jr., 20.

Next Friday, Aug. 13, the club
members will shoot for a trophy
donated by J. W. Davis & Co. This
trophy is now on display in their
large show window.

The supreme honor of salesman-
ship is that it deals with the most
difficult of raw materials—human
nature.

4000,000 PEOPLE

Annually use these tablets of organic iron—Nuxated Iron—to build up blood, strength and endurance.

Dr. H. B. Vail, formerly Physician in the Baltimore Hospital and a Medical Examiner says: "There are thousands whose bodies are aging and breaking down at a time when they should be enjoying that perfect health which carries defiance to disease simply because they are not awake to the condition of their blood. By allowing it to remain thin, pale and watery, they are not giving the natural life forces of the body a chance to do their work. Iron is red blood food and in my experience I have found no better means for building the red blood corpuscles and helping to give increased power to the blood than organic iron—Nuxated Iron." Nuxated Iron comes in tablet form only and does not contain any ordinary metallic iron but only the finest quality of pre-digested organic iron which is easily assimilated by the blood.

MULE LET LOOSE AND CHARLEY LOST TROUSERS

Charley Dickerson, experienced horseman, while strolling in front of the First National Bank at Cumberland, Texas, spied a mule com- placently munching grass.

Approaching the animal, Charley petted it affectionately on the flank, with the result that the mule playfully landed with both hoofs just above Charley's belt. Then with a downward swoop the animal deftly removed Charley's trousers.

Seeing Dickerson's predicament, passersby rushed him into the bank, where, with the aid of a telephone, he soon secured another pair.

PRESS IS THE LEVER THAT MOVES THE WORLD.

"The press is the lever that moves the world as no other earthly power could move it," said Supreme Court Justice Fawcett, in Brooklyn, when he continued the preliminary injunction granted in favor of a Brooklyn newspaper, restraining Mayor Hylan from banning from the reporters' well in the Board of Estimate chamber a representative of the paper, with whom he had had a difference. "The press should not be hampered while in the lawful pursuit of news, or interfered with while honestly disseminating really important information for its readers," Justice Fawcett ruled.

NEW DEPUTY BANKING COMMISSIONER

FRANKFORT, KY., August 9.—Banking Commissioner James P. Lewis has appointed W. W. Peavyhouse, Hazard, deputy banking commissioner to succeed A. A. Adams, Whitesburg, resigned. He also appointed Lon Richards, Lewisport, state bank examiner.

Peavyhouse has been connected with the Hargis Trust Company, of Jackson, for many years. Richards was in the banking business for seven years and at present is principal of a high school in Ohio County.

Adams will return to Whitesburg where he is in business.

BELIEVES BICYCLE WILL BE REVIVED.

ATLANTIC CITY, August 9.—The bicycle industry has progressed more rapidly in the last year than any other industry in the United States. This striking proof of the revival of bicycle riding was brought out at the opening session of the convention of the Cycle Trades of America here.

The bicycle was emphasized as the cheapest means of transportation known to man. It was stated unofficially that 650,000 bicycles were manufactured in the United States in the last year.

An appropriation of \$300,000 was voted for the advertising campaign in the interests of the bicycle industry in general during the coming year.

PONZI CONTINUES TO MAKE GOOD.

BOSTON, MASS., August 9.—Charles Ponzi, whose offer of 50 per cent return on investments in ninety days, has resulted in federal and state investigations, declined the suggestion of Attorney General Allen that the state conduct an investigation to determine his assets. The audit now being made by federal authorities is for the purpose of disclosing his liabilities.

"There is no law which can force me to show all my assets," Ponzi asserted. "Show me my liabilities and I'll show enough cash to cover them."

The offices of the Securities Exchange Company, conducted by Ponzi, continued throughout the day to honor all notes presented by an ever-diminishing line of investors.

Speculators, two of whom claimed to have made \$14,000 yesterday by purchasing notes at 10 per cent discount, met with little success today.

Ponzi and his wife attended a theatre tonight and his appearance was the signal for shots and cheers from the audience, to which he responded by bowing from his box.

FIREMEN AND WORKMEN KILLED IN EXPLOSION

CINCINNATI, O., August 9.—Fred Hotel, Joseph Scott and Lee West, firemen, were killed in explosions following a fire in the plant of the Refiners Oil Company here Thursday night. Eight other firemen were taken to hospitals. Two of them are said to be in a critical condition as the result of burns.

The fire loss was nominal. Sions traveled along a fence to three 1,000-gallon gasoline tanks which exploded immediately following the arrival of a hook and ladder company. All members of the crew were enveloped in the burning liquid. Hotel and Scott perishing in the flames. West died after being removed to a hospital.

STATE SCHOOL CENSUS FIGURES MADE PUBLIC

The 1920 school census shows that there are 642,221 children of school age in Kentucky, which is an increase of 76,633 over the last census taken in 1918. There are 296,088 white male pupils, making a total of 582,068 white children of school age. There are 60,153 colored children of school age, of which 29,936 are males and 32,170 females.

In 1918 there were a total of 565,588 children of school age in the State.

COL. HUNT ACQUITTED ON SERIOUS CHARGE

NEW YORK, August 9.—Rear John E. Hunt, former commander of the Fort Jay military prison, has been acquitted on a charge of neglect of duty in connection with the escape of Grover C. Bergdoll, wealthy Philadelphia draft dodger, it was announced Wednesday.

Colonel Hunt was fully exonerated in approval of the court's acquittal by Major General Bullard, commanding the Department of the East.

The specific charge against Colonel Hunt was that he had not provided sufficient guards for Bergdoll, who eluded two sergeants of nearly twenty years army experience when he escaped from his Philadelphia home May 20. He was out of prison on special permission from the War Department.

SAYS PRESIDENT BETTER THAN BEFORE ILLNESS.

WASHINGTON, August 9.—Rear Admiral Cary G. Grayson, personal physician to President Wilson, left Washington, last week, for a vacation at a resort a considerable distance from Washington in connection with his departure. It was said by persons in touch with the White House that the President's condition of health had so improved and he was in such good shape that Dr. Grayson had not left any other physician to attend the President during his absence.

Reports indicating that the President's health had suffered a severe setback have been circulated recently. According to some of those who have seen the President, he is in better shape than he has been since the beginning of his illness nearly a year ago. He presided at a meeting of the Cabinet this week, and afterward Cabinet officers said that his condition showed marked improvement.

"He's doing more and better work than any man in Washington," said Secretary Colby, who added, "and you may quote me as saying that."

Lemons Whiten and Double Beauty of the Skin

Squeeze the juice of two lemons of Orchard White which can be had at any drug store, shake well and you have a quart of harmless and delightful lemon bleach for few cents.

Massage this sweetly fragrant into a bottle containing three ounces lotion into the face, neck, arms and hands each day, then shortly note the beauty of your skin.

Famous stage beauties use lemon juice to bleach and bring that soft, clear, rosy-white complexion. Lemons have always been used as a freckle, sunburn and tan remover. Make this up and try it.

AMERICAN NOTE MAKES IMPRESSION IN JAPAN.

TOKIO, Aug. 9.—The American note dealing with Japan's occupation of the Northern part of the island of Saghal appears to have made an unpleasant impression generally upon the Japanese, but the hope is expressed that the government will be able to convince the United States that the occupation is only of a temporary character.

The newspapers in their comment are adopting, in the main, three lines of opinion. The first, represented by the Kokumin Shimbun, is that America's attitude toward Japan is in the nature of a challenge. The second, voiced by the Yomi-Yuri Shimbun, is that the Japanese militarists are to blame for what it declares is the misconception abroad about Japan. The third, expressed by the conservation Jiji Shimpō, is that the occupation of Russian territory by the Japanese constituted a doubtful policy, liable to cause difficulties both at home and abroad.

AMERICAN TOBACCO SALES INCREASED.

NEW YORK, August 9.—Sales of the American Tobacco Company increased approximately 114 per cent during the period of 1912 to 1919, according to report of the company's business for last year, made public Saturday.

Sales in 1919 were \$146,023,730, compared with \$67,950,257 in 1912, an increase of \$78,073,473.

With the distribution of a 75 per cent stock dividend in August the total capital, including the funded debt will have been increased to \$164,056,700, an increase of 67 per cent over 1913.

OLDEST ODD FELLOW DEAD.

CHILLICOTHE, MO., August 9.—Socrates England, believed to be the second oldest Odd Fellow in the United States, died here at the age of 97.

He became a member of the I. O. O. F. at Curdsville, Ky., in March, 1855. He had also been a member of the Masonic order for the past 50 years, and had lived in this place for 57 years. He came to Missouri from Harrodsburg, Ky., in the spring of 1855, when Kansas City was still known as Westport Landing.

The man who is so constituted that you would be willing to do most any kind of a favor for him is the one who seems to need help the least.

YOU KNOW THIS FELLOW

I'm the guy who tells one funny story after another and never gives you a chance to spring your "pet" one.

I know a lot of 'em and I don't like to quit until I've told all of 'em I can think of. So I hold the floor. Just because you've got one in your system that you want to get out is no reason why I should stop and let you.

You may be trying so hard not to forget yours that you aren't listening to mine, but I keep on telling 'em just the same.

You may like to tell one, but so do I, and I make hay while the sun shines. If I give you the floor, I might not get it back again.

There's more fun telling 'em than listening to 'em anyway. I tell 'em to you to amuse myself. It would bore me to listen to you for I'd only be waiting impatiently to resume my monologue. And you know it.

TAXI BANDITS HOLD UP NEW YORK PLACE

NEW YORK, August 9.—Five armed taxi bandits entered the Lenox Baths backed five employees against the wall at the point of revolvers and took \$150 from the cash register after felling Harry Cohen, manager.

They fled with from \$7,000 to \$10,000, which they obtained from deposit boxes in which 175 patrons sleeping in the establishment, had checked valuables.

Morris Hochman, the ticket taker, said that when the men came in from their two taxi and said "hands up" he thought it was a practical joke and began to giggle. He was promptly stretched out on the floor by the butt of a revolver.

Picking himself up he crawled over to a telephone to call the police when he was knocked down again and was content then to join the lineup along the wall.

BUILT on the same extra-length chassis as that of the large Buick Sedan, this seven-passenger model represents, in open car design, an exact duplication in size and quality of the more costly closed body type. In every respect, its manufacture is just as scrupulous to fulfill in serviceability the promises made by its fine appearance. And the full measure of the Model K-Six-49 makes it generous in comfort—in roominess—in looks—in all other qualities that are best appreciated in combination with the powerful Buick Valve-in-Head Motor.

That So Many Paris People Fail To
Recognize Kidney Weakness

Are you a bad back victim?
Suffer twinges; headaches, dizzy
spells?
Go to bed tired—get up tired?
It's surprising how few suspect
the kidneys.

It's surprising how few know
what to do.
Kidney trouble needs kidney
treatment.

Doan's Kidney Pills are for the
kidneys only.

Have convinced Paris people of
their merit.

Here's a Paris case; Paris testi-
mony.

Kidney sufferers hereabouts
should read it.

Mrs. A. L. Burley, 329 Eighth

Kidney Pills, getting them from the
Ardery Drug Co., and from the ben-
efit I received, I certainly think
they are a good, reliable kidney
remedy. Whenever my kidneys
have acted irregularly or my back
has been weak and lame, I have
used a box or so of Doan's Kidney
Pills. They have always relieved
me of the complaint."

BEWARE OF LEAKS

Before canning, a test should be
made for leaks in a screw top jar by
placing the top on the jar without
the rubber, according to the Home
Economics Department, College of
Agriculture. If the thumb nail can
be inserted between top and glass
the top is usually defective. Place
rubber and top in position and
screw down lightly. Pull rubber
from position. Release. If the
rubber returns to position, the top
is defective.

KENTUCKY TRACTION AND TER-
MINAL COMPANY

INCREASED VALUATIONS.

FRANKFORT, KY., August 9.—
An increase of \$14,391,730 in the
assessment of intangibles reported by
County Tax Commissioners and of
\$77,975,416 in real estate, including
city and farming land and mineral
rights and leases, failed to make up
in the 1919 State assessment for the
\$103,000,000 intangibles of the Bing-
ham estate, which were included in
the 1918 assessment and which went
off the Jefferson County tax books
last year. The total assessment for
1919 of \$1,774,383,425 is \$13,700,-
052 below that of the year before.
Of the total assessment real es-
tate represents \$1,120,081,538, al-
most two-thirds. The assessed value
of water craft in Kentucky streams
is \$13,674,528, about two and a half
millions more than the combined as-
sessed valuation of all mine equip-
ment, mineral products and royalties
returned, and only \$2,700,000 less
than the return on mineral rights
and leases. Coal and other mineral
in the ground are assessed as rural
real estate.

350,000 FORMER SOLDIERS ARE GIVEN JOBS

Activities of the Knights of Col-
umbus in reconstruction, educa-
tional and patriotic work were de-
tailed to the delegates attending the
38th supreme convention of the or-
der at New York, by Supreme
Knight James A. Flaherty. "We
have placed more than 350,000
men in employment without cost to
them," he said, adding that tens of
thousands of former service men and
women were benefited by the order's
educational campaign. Five hun-
dred veterans are receiving college
educations in representative univer-
sities. The K. of C. school system
has grown from 1 to 73 schools
within 12 months and will grow to
200 schools before the end of the
year, he predicted. Teachers are
paid 25 per cent. more than the pub-
lic school rate, he added. The ulti-
mate aim is to have a system of 500
self-sustaining night schools. Open
also to civilians for nominal fees.
Lecturers in the K. of C. campaign
against Bolshevism, have addressed
2,000,000 persons in 700 cities,
Flaherty said.

THOUSANDS OF PERCH POISON- ED AT REELFOOT.

Sun perch in an era extending
over fifteen acres of Reelfoot Lake
were poisoned by stagnant water
last week. There are estimated be-
tween ten and fifteen thousand
pounds of dead fish on top of the
water there. The poisonous water
was blown by a hard wind from
Black Slough, which empties into
the lake. The slough is shallow
and the water had been standing for
some time. Onlookers said the
perch began to come to the top im-
mediately after the overflow of the
lake, fighting for air. The top of
the water at that point shortly was
covered with dead fish. The inci-
dent is unprecedented at Reelfoot,
which has been a favorite resort of
Kentucky sportsmen for years.

OVERLAND MAN IS OUT WITH FACTS

Is Back On The Job And Feels Ten
Years Younger Since Tak-
ing Tanlac.

"Tanlac has put an end to a case
of rheumatism that had about laid
me out altogether, and I have gained
twenty pounds in the last six weeks
besides," said John C. Temple, an
employee of the Overland Automo-
bile Co., living on Caswell Road, To-
ledo, Ohio.

"For five years I had suffered from
rheumatism in my right leg all the
way down to my feet, and in spite
of all the liniments and medi-
cines I tried I got worse all the
time. Every now and then the
rheumatism would get so bad I
would take to my bed. Why, some-
times my leg and foot would swell
twice their natural size and I would
be laid up in bed helpless for weeks
at a time. I lost half a year from
work during this time and was in
pain and suffering nearly all the
time. I lost my appetite and didn't
relish a thing I forced myself to eat
and I fell off in weight until I got
down to one hundred and twenty-
eight pounds.

"Some time ago a friend of mine
advised me to try Tanlac and it was
lucky for me that I did so. The
rheumatism commenced to lose its
grip right away and now I believe
it has all been driven out of my
system, for I haven't had an ache
or pain of any kind for three weeks.
I am working every day and I feel
as strong and active as I ever did. I
have an appetite that can't be beat
and I now weigh one hundred and
forty-eight pounds, a gain of twenty
pounds. Tanlac has built me up to
where I am feeling ten years young-
er, and a medicine that will do that
deserves all the praise I can give it."

Tanlac is sold in Paris at the Peo-
ples Pharmacy. (adv)

"CARRY THE COUNTRY WITH COX."

The Glasgow Times says: "Among
things not mentioned in the Repub-
lican platform: 'America's part in
the war. Was this not important?
Was it not honorable? Could not
the Republicans have remembered
at least our dead who died in the
war. Their silence deserves an
earnest rebuke.'"

AMERICAN BOY SCOUTS IN EN- GLAND.

LONDON, August 9.—A team of
American Boy Scouts from Miami,
Fla., at the International Boy Scout
"Jamboree" established what is be-
lieved to be a world's record in the
terk-cart competition. Eight of the
American youths, competing against
a similar Welsh team, covered 500
yards over obstacles with a two-
wheeled trek-cart loaded with eight
sandbags weighing 400 pounds, in 2
minutes 53 3-5 seconds. The team
had to unload their carts, get them
over a wall, reload them and run
through a pool of water. The Welsh
boys took more than four minutes to
accomplish the task.

STATE PROPERTY VALUATION SHOWS DECREASE

The total assessed valuation of
property in Kentucky for 1919 is
\$1,774,383,425, as compared to
\$1,788,083,477 for 1918. On the
face of these figures it appears that
the 1919 assessment is \$13,700,052
lower than the 1918 assessment.
When it is taken into consideration
that the 1919 assessment of intan-
gible property in Jefferson county
shows a decrease of \$97,575,076,
due to the fact that the Bingham
estate was assessed at about \$103,-
600,000 in 1918 and for 1919 was
not assessed at all, the 1919 assess-
ment is really \$89,299,948 greater
than in 1918.

An increase of \$77,975,416 over
1918 is shown in the assessment of
lands, mineral rights, leases, town
lots and improvements.

WAR IS NOT OVER FOR THESE.

While a lot of people are forget-
ting all about the war there are still
approximately 17,625 War Risk pa-
tients in the government hospitals.
The government has decided to
convert two of the national homes
for volunteer soldiers into sanitar-
iums for the exclusive treatment of
tuberculosis and another one of the
homes into a sanitarium for the ex-
clusive treatment of mental cases.
These institutions are necessary be-
cause of the condition of ex-soldiers,
most of whom have suffered from
shell shock and poisonous gases.
These patients who have become
disabled by reason of their military
or naval service are provided for
under the War Risk act.

DEPUTIES AND MOUNTAINEERS IN BATTLE.

PINEVILLE, KY., August 9.—
Zach Saylor, 45 years old, was killed
and Austin Saylor, his son, was seri-
ously wounded near Hulen, thirty
miles from Pineville in Harlan Coun-
ty. Frank Taylor, a deputy sheriff;
Britt Howard, John Payne and Wal-
ter Taylor, all deputized by Taylor,
it is alleged, did the shooting while
attempting to place the Saylor under
arrest.

It is said that the trouble arose
over the Saylor's shooting along a
public road and threatening John
Payne. Deputy Taylor, accompanied
by his brother, Walter Taylor, came
upon the scene and attempted to ar-
rest the Saylor, who opened fire up-
on them, it is said. Taylor returned
the fire and also asked the three men
to assist him. A general firing fol-
lowed, probably seventy-five shots
being exchanged, according to re-
ports.

The elder Saylor was shot while
behind a tree and died almost in-
stantly. His son was riding a mule.
After he was shot the mule fled to
the woods and the man was not found
for several hours. His wounds will
prove fatal. Howard Payne and Tay-
lor gave themselves up to the sheriff
of Harlan County and were released
on bond. Saylor is survived by his
wife and four sons.

WAR BRIDES EN ROUTE TO AMERICA.

SOUTHAMPTON, August 9.—
When the United States army trans-
port Pocahontas steamed out of this
harbor for New York she had on
board over a hundred war brides and
their doughboy husbands who are be-
ing returned to America because of
the lack of housing facilities in Cob-
lenz.

All the married men in the Army
of Occupation, whose wives are with
them and who rank under the grade
of Sergeants, are being ordered
home.
Of the brides won by soldiers over
seas and who are to see America for
the first time, the greatest number,
forty-four, are German. England
and France are each represented with
twenty-one while Russia and Italy
each contributed ten.

K. OF C. PILGRIMAGE LEAVES FOR FRANCE.

The Knights of Columbus pil-
grimage to France, where it will
present and dedicate a statue of
Lafayette at Metz, was given a
noisy farewell as it sailed away
from New York on the steamship
Leopoldina.

The delegation comprises 250 per-
sons, including 12 Catholic priests.
The Lafayette statue at Metz, a gift
of the order to France, is to be un-
veiled August 21 by Marshal Foch,
who also will be presented with a
jewelled baton at the same time.
The delegation will make a pilgrim-
age to the famous Catholic Shrine
at Lourdes in Southern France and
thence journey to Rome, where
Pope Benedict has consented to
grant it an audience.

ARE MARKETING WHEAT

Farmers in Missouri are market-
ing their wheat earlier this year
than last. The dry weather has
made the country roads as good as
it is possible to make them, and
wagons laden with the golden
grain are moving into every mar-
ket.

Prices for wheat are even better
than last year. Wheat growers are
taking advantage of the high prices
of wheat and the low prices of Lib-
erty Bonds to exchange the best
grain on earth for the best invest-
ment on earth—bonds issued by the
United States Government.

—Millersburg was visited by an electric storm Saturday afternoon, which did considerable damage. The home of Miss Lannie N. Layson was struck by lightning. However, the damage was not serious, burning only a small hole in the roof. A number of telephones were put out of commission, and several electric light fuses burned out. The rainfall was heavy, with but little wind.

MATRIMONIAL

HARTWELL-MILLER.
—Mr. Bruce Miller, editor and proprietor of the Kentuckian-Citizen, of this city, and Miss Martha Hartwell, of Cincinnati, were married last night at the home of the bride's parents, Mr. and Mrs. George W. Hartwell, at Amelia, Ohio. Only the immediate members of the family were present to witness the ceremony, which was performed by the pastor of the Amelia Baptist church, of which the bride is a member.
The bride was lovely in a handsome wedding gown of white satin, with veil and train, and carried a bouquet of lilies of the valley. The only attendant was her sister, Mrs. May Boehm, also attired in white satin, and carrying a bouquet of roses. The bride was given in marriage by her father, Mr. George W. Hartwell.

Immediately after the ceremony, Mr. and Mrs. Miller left for a ten-days' bridal trip to New York, Washington, Philadelphia, Atlantic City, and other points of interest in the East. Before returning they will visit the groom's sister, Mrs. Allie Miller Preston, and other relatives in Ashland, Ky.
Mr. Miller first met his bride while while on a business trip to Cincinnati, about eight years ago, being introduced by a mutual friend. The acquaintance thus formed ripened into love and the marriage last night was the culmination of their courtship. The bride is a most charming and attractive young woman, one whose lovely traits of character have endeared her to a host of friends. She has been for several years private secretary to one of the officials of the John Shillito Co., in Cincinnati, where she was highly esteemed for her social and business qualities.
Mr. Miller is a member of one of Bourbon county's oldest families, and has for years been editor of the Paris Kentuckian-Citizen, one of the oldest papers in the West. He was associated in the management and editing of THE NEWS for several years, and is a cousin of the editor of THE NEWS, Mr. Swift Champ. At the death of Col. John G. Craddock, Mr. Miller purchased the business and good will of the Kentuckian-Citizen, which he has successfully conducted since.

In common with the many friends of the groom THE NEWS wishes him and his winsome bride long life and happiness. The good wishes and congratulations of their Paris friends and relatives were received just preceding their departure on the honeymoon trip.

The following announcements have been issued:
—Mr. and Mrs. G. W. Hartwell announce the marriage of their daughter, Martha, to Mr. William Bruce Miller, on Monday, August the ninth, one thousand nine hundred and twenty, Amelia, Ohio.

MUIR-YANCEY.

—Mrs. Kirby Harp Muir, of Lexington, and Mr. S. B. Yancey, of

Kansas City, Mo., were married Saturday afternoon at the home of the bride's sister, Mrs. Newton Taylor, in Lexington, Rev. Mark Collis performing the ceremony. The only witnesses were Mr. and Mrs. Taylor and Mr. and Mrs. Tevis Wilkerson, the latter also a sister of the bride.

The bride wore a tailored suit of blue tulle with hat to match and a corsage bouquet of pink rosebuds. After the ceremony the bride and bridegroom left for a trip of two months to Kansas City and Denver, Colorado.

The bride is a charming and accomplished woman, who was a frequent guest at the home of Mr. and Mrs. Taylor, when they resided on their farm near Paris. She is an aunt of Mrs. Julian Frank, of near Paris. Mr. Yancey is a member of a prominent Kentucky family and has been engaged in business in Kansas City for several years.

DEATHS.

SHROUT.

—Virginia Ruth ShROUT, aged two years, died Saturday night, after a short illness, at the home of her parents, Mr. and Mrs. Ivory ShROUT, on Parrish avenue. The body was taken to Carlisle, where the interment took place in the Carlisle Cemetery yesterday morning, with services conducted at the grave by Rev. W. E. Crouch, pastor of the Carlisle Christian church.

HARRIS.

—Mrs. Ida Mae Harris, aged eighteen, wife of Vincent Harris, died at her home near Winchester, last week. The body was brought to Winchester for interment in the Winchester Cemetery. Besides her husband, Mrs. Harris is survived by a daughter, seven months old, her parents, Mr. and Mrs. William Walden, six brothers and five sisters, one of whom, Mrs. Dora Clarke, resides near North Middletown, in this county.

LOONEY.

—Mr. A. L. Boatright, chorister of the Paris Christian church, received a telegram yesterday from Lamar, Mo., announcing the sudden death there Sunday night of his mother, Mrs. E. A. Looney. Mr. Boatright left yesterday afternoon for Lamar to attend the funeral and burial.

Mrs. Looney was a woman of excellent Christian character, and was greatly beloved by a large circle of friends. She was a devoted member of her church and took a leading part in all its works.

Besides her son, Mr. A. L. Boatright she is survived by two brothers, both residing in Lamar. The sympathy of the community goes out to the son in his great bereavement.

WINS BIG PRIZE

Miss Helen Cain, daughter of John P. Cain, of Paris, was the successful contestant for the prize of \$20 in gold for the one disposing of the greatest number of tickets for the Knights of Columbus picnic held here last week. Miss Cain donated her prize to the fund being raised for the purchase of a new organ for the Church of the Annunciation in this city.

OUR LOCAL MERCHANTS AND CLERKS ARE COURTEOUS

Some Paris people we know, or used to know, gave as an excuse for buying goods away from home, that they preferred to go to some place where they were not known personally, so that they could slip out easily if they didn't want to make a purchase.

Many years ago, even in Paris, as we have noted merchants and clerks would sometimes get very mad if prospective customers and shoppers didn't buy. But the modern merchant has long ago gotten away from that disagreeable trait. If they can't sell an article, they are anxious to be particularly polite, so that the customer will at least leave the store with a good feeling and a disposition to come again.

It would be a hard matter, according to our view, to find a city or

town in all Central Kentucky where there is as much courtesy shown as there is in Paris. Our merchants and their employees take special pride in their readiness to show goods, and most certainly show a wonderful good nature and infinite patience in dealing with the whims of many-sided customers. They don't want any customer to feel that he or she must make a purchase, if they are not satisfied with the goods and if the prices are not right.

"The Mule."

Being told to write a brief essay on "The Mule," Howard turned into his teacher the following effort: "The mule is a harder bird than the guse or the turkie. It has two legs to walk with, two more to kick with, and wears its wings on the side of its head. It is stubbornly backward about coming forward."

Sea Serpents Numerous.

There are plenty of sea serpents, and of all snakes they are the most venomous. In tropical waters they are vastly numerous, especially in the Indian ocean, where they are often seen literally by hundreds, swimming at the surface of the water. They are six to eight feet long, very fierce and will commonly attack human beings. Their bodies are flat, and almost wholly filled by the lungs.

History of the Pistol.

Pistols were invented at Pistoja, Italy, and were first used by English cavalymen in 1544.

By Another Name.

Under the name of "Sicilian oil," petroleum was burned in lamps in Rome in the days of Pliny.

Teaching Music to the Young.
Children are now taking in the musical work in the Roman choirs as early as seven years of age, says a writer in the Etude in discussing the importance of early training in music for church purposes. They are not merely taught in the music they are to sing, but are given a very thorough drill in solfeggio, and, when necessary, at the proper time in harmony and in music in general.
